AVK Crimp Tool Set

### Donkin Series 456 Crimp Tool

The Donkin Series 456 Crimp Tool Kit has been designed to provide a simple and cost effective method of jointing small diameter PE and metallic pipes. It is compatible for use with all fittings in the market to provide consistent results on mechanical crimped joints to join metallic transition fittings to PE 80 SDR 11 pipes.

Supplied as a kit to cover 20, 25 and 32mm (with 16mm shells available as an option) this unit provides considerable cost savings over the purchase of individual tools. Featuring a long hexagon drive nut for use with powered tools and ratchet spanner and supplied in a hard carry case with all parts replaceable to reduce ongoing costs.

Product Code	Description
089-000506	Crimp Tool Set 32/25/20mm with Hexagon Drive
089-000507	Threaded Pivot
089-000508	Bolt and Bearing Assembly for AVK Crimp Tool
089-000509	Shell set 16mm
089-000510	Shell set 20mm
089-000511	Shell set 25mm

## Vent Tubes

Designed for use with either the Uponor or Durafuse 32mm Purge fittings or can be attached to bagging off equipment directly (with adaptor). Intended for use during direct purging or venting operations (i.e. Bagging off). (Note! The equipment is not intended to remain permanently attached to the pipeline).

Product Code	Description
051-000006	3M Vent Tube c/w Flame Trap (1m + 2m tubes and 1" BSP connections)

## Purge Ejectors

Mini Purge Ejector

Extension Tube

The new Mini Purge Ejector is designed as an alternative to the large purge ejectors which have been in use since the mid 1980s. It works on the same Venturi principle but is lighter and easier to handle. Designed for use on mains from 3" to 12" in diameter, the Mini Purge Ejector ensures a fast, clinical and effective purge on gas pipes to be abandoned. The Mini Purge Ejector is attached to one end of the isolated main and the vent is opened at the other end to draw in air. Compressed air is introduced into the Mini Purge Ejector which creates a vacuum. This has the effect of withdrawing the gas from the main; the purged gas and air are expelled into the atmosphere.

Product Code	Description
359-000200	Mini Purge Ejector
359-000202	Extension Tube
