

## Alignment Clamps

EFRAC 20-40 Uni-Clamp

EFRAC 16-63 Uni-Clamp

### Manual Electrofusion Clamps

Manufactured using the latest laser cutting & water jet techniques, the clamps have a 'feel of quality'... more importantly they remain 'rigid' even under arduous pipe/site conditions.

### EFRAC 20-40 and 16-63 Uni-Clamp; Restraining and Alignment Clamp

Compact, powerful Clamp with capability for straight, reducing and elbow fittings.

### EFRAC 16-63 Elbow Clamp Kit

This kit comprises a main spring-loaded Clamp Body with easily changeable Clamp Jaws. The Clamp Jaws facilitate use on 16, 20, 25, 32, 40, 50 and 63mm electrofusion fittings... either straights, reducers, 90° Elbows or 45° Elbows.

The Clamp is compact and has been designed specifically for use when connecting an Elbow to a Tapping Saddle, however it is also versatile for use in other electrofusion applications.
